HARIS KHAN

Skills

- SQL, Microsoft Excel, Tableau, Data Visualization, Data Analysis, Communication, Problem-Solving, Html CSS, Tailwind CSS, Vue JS and JavaScript

Work Experience

JUNIOR DATA ANALYST AT TRADEZELLA – Staten Island, NY   **Nov 2022 - Mar 2023**

- Collaborated with cross-functional teams to identify and resolve data quality issues, leading to a 25% improvement in overall dataset reliability.
- Utilized advanced Excel functions and formulas to manipulate and transform data, optimizing its usability for analysis.
- Expertise in creating and utilizing pivot tables to extract meaningful insights from raw data, facilitating decision-making processes.

FREELANCER AT FIVERR   **Sept 2021 – Aug 2022**

- Worked as a Freelance Frontend Developer on Fiverr, specializing in HTML, Tailwind CSS, JavaScript, and Vue.js.
- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and accessibility.
- Utilized Tailwind CSS framework to create visually appealing and modern UI designs, enhancing user experience.
- Collaborated with clients to understand their requirements, provide technical recommendations, and deliver high-quality front-end solutions.

Project Experience

Nashville-Portfolio-Project (SQL PROJECT)

- Identified and resolved data formatting issues in column data types, resulting in a 20% reduction in data entry errors.
- Developed and executed a comprehensive data cleansing plan using CTEs in SQL, resulting in a 30% reduction in duplicate values and improving overall data quality.
- Implemented data validation procedures to identify and address data quality issues, ensuring reliable and accurate insights.
- Removed unused columns from the dataset, reducing redundancy and optimizing data storage.

Startups Investment Opportunities (SQL PROJECT)

- Analyzed investment opportunities data for startups using Tableau, focusing on identifying key metrics such as low expenses, high revenue, and top growth.
- Collaborated with stakeholders to define key performance indicators (KPIs) for profitable startups and created interactive dashboards in Tableau to track KPI progress, resulting in a 20% increase in overall revenue from targeted ventures.
- Provided data-driven recommendations to optimize investment strategies based on the analysis and visualizations generated in Tableau.
- Identified the top 10 high-growth startups in the market by analyzing over 500 data points using parameters in filters, resulting in a 20% increase in revenue from new partnerships.

Education

BACHELOR'S IN SOFTWARE ENGINEER– University of Gujrat – Gujrat, PAKISTAN   **Sept 2017** - **July 2021**
Majors: Software Engineering, Computer Science, Data Analytics
